

# **SAFETY DATA SHEET**

Published Date May-15-2019 Revision Date May-15-2019 Revision Number 2.5

# 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Product identifier Product code Product name

Product category

89402 Halftone Magenta Dense 8900 Series SV Thermo-Set Screen Ink

Other means of identification Synonyms

Recommended use of the chemical and restrictions on useRecommended usePrinting operations

None

## Details of the supplier of the safety data sheet

UNITED STATES Nazdar Company 8501 Hedge Lane Terrace Shawnee, KS 66227 Tel: +001-913-422-1888 Tel: +001-800-677-4657 Fax: +001-913-422-2294 www.nazdar.com UNITED KINGDOM Nazdar Limited Barton Road Heaton Mersey Stockport, England SK4 3EG Tel: +44 161 442 2111

#### Emergency telephone number

USA: Chemtrec: +001-800-424-9300 Outside USA: Chemtrec: +001-703-527-3887 24 Hour Emergency Phone Number

# 2. HAZARDS IDENTIFICATION

#### **Classification**

| Chronic aquatic toxicity | Category 3 - (H412) |
|--------------------------|---------------------|
| Flammable liquids        | Category 3 - (H226) |

#### Label elements

Warning

## **Hazard Statements**

H412 - Harmful to aquatic life with long lasting effects H226 - Flammable liquid and vapor

#### **Precautionary Statements**

P273 - Avoid release to the environment
P233 - Keep container tightly closed
P280 - Wear protective gloves/protective clothing/eye protection/face protection

P403 + P235 - Store in a well-ventilated place. Keep cool

P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking

#### Hazards not otherwise classified (HNOC)

Causes mild skin irritation. Harmful to aquatic life.

## **3. COMPOSITION/INFORMATION ON INGREDIENTS**

#### Mixture

| Component                 | CAS-No  | Weight % | Trade<br>Secret | Note |
|---------------------------|---------|----------|-----------------|------|
| Naphthalene (constituent) | 91-20-3 | < 0.5    | *               | 1    |

\*The exact percentage (concentration) of composition has been withheld as a trade secret.

#### Note 1. Type of chemical: Constituent

## 4. FIRST AID MEASURES

#### Description of first aid measures

| General Advice<br>Eye Contact | Show this safety data sheet to the doctor in attendance.<br>Immediately flush with plenty of water. After initial flushing, remove any contact lenses and<br>continue flushing for at least 15 minutes. Get medical attention if irritation develops and<br>persists. |
|-------------------------------|---|
| Skin Contact                  | Wash off immediately with soap and plenty of water for at least 15 minutes. Remove contaminated clothing. If irritation (redness, rash, blistering) develops, get medical attention.  |
| Inhalation                    | Remove person to fresh air and keep comfortable for breathing. If breathing is irregular or stopped, administer artificial respiration. Get medical attention immediately.  |
| Ingestion                     | Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.   |

#### Most important symptoms and effects, both acute and delayed

None under normal use conditions.

#### Indication of any immediate medical attention and special treatment needed

Notes to Physician

Treat symptomatically.

## **5. FIRE-FIGHTING MEASURES**

#### Suitable Extinguishing Media

Foam. Carbon dioxide (CO2). Dry chemical. Water spray. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

#### Unsuitable Extinguishing Media

No information available.

## Specific Hazards Arising from the Chemical

Thermal decomposition can lead to release of irritating gases and vapors. May emit toxic fumes under fire conditions.

#### **Protective Equipment and Precautions for Firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Cool containers / tanks with water spray. Sealed containers may rupture when heated.

## 6. ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

Personal Precautions

Remove all sources of ignition. Ventilate the area. Avoid contact with eyes, skin and clothing. Avoid breathing dust or vapor. Evacuate personnel to safe areas. Keep people

away from and upwind of spill/leak.

## Environmental precautions

Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. Keep out of drains, sewers, ditches and waterways. Local authorities should be advised if significant spillages cannot be contained.

#### Methods and material for containment and cleaning up

Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Use clean non-sparking tools to collect absorbed material.

# 7. HANDLING AND STORAGE

#### Precautions for safe handling

Handling Use personal protective equipment as required. Do not eat, drink or smoke when using this product. Ensure adequate ventilation.

#### Conditions for safe storage, including any incompatibilities

| Storage               | Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from open flames, hot surfaces and sources of ignition. Keep container closed when not in use. Keep out of the reach of children. |
|-----------------------|--|
| Incompatible Products | Strong acids. Strong bases. Strong oxidizing agents. Reducing agent.   |

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Control parameters

#### Exposure limits

| Component                 | ACGIH TLV   |
|---------------------------|-------------|
| Naphthalene (constituent) | TWA: 10 ppm |
| 91-20-3                   | Skin        |

| Component                 | OSHA PEL                  |
|---------------------------|---------------------------|
| Naphthalene (constituent) | TWA: 10 ppm               |
| 91-20-3                   | TWA: 50 mg/m <sup>3</sup> |

| Component                 | OSHA PEL (vacated)         |
|---------------------------|----------------------------|
| Naphthalene (constituent) | TWA: 10 ppm                |
| 91-20-3                   | TWA: 50 mg/m <sup>3</sup>  |
|                           | STEL: 15 ppm               |
|                           | STEL: 75 mg/m <sup>3</sup> |

| Component                 | Ontario TWAEV |
|---------------------------|---------------|
| Naphthalene (constituent) | TWA: 10 ppm   |
| 91-20-3                   | Skin          |

| Component                 | Mexico OEL (TWA)                  |
|---------------------------|-----------------------------------|
| Naphthalene (constituent) | TWA/VLE-PPT: 10 ppm               |
| 91-20-3                   | TWA/VLE-PPT: 50 mg/m <sup>3</sup> |
|                           | STEL/PPT-CT: 15 ppm               |
|                           | STEL/PPT-CT: 75 mg/m <sup>3</sup> |

#### Appropriate engineering controls

#### Engineering Measures

Provide a good standard of general ventilation. Natural ventilation is from doors, windows etc. Controlled ventilation means air is supplied or removed by a powered fan. Users are advised to consider national Occupational Exposure Limits or other equivalent values. In case of insufficient ventilation, wear suitable respiratory equipment.

#### Individual protection measures, such as personal protective equipment

| Eye/Face Protection           | Wear safety glasses with side shields (or goggles). If splashes are likely to occur:. Wear suitable face shield. Ensure that eyewash stations and safety showers are close to the workstation location.   |
|-------------------------------|---|
| Skin Protection               | Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact.  |
| Hand Protection               | Chemical resistant protective gloves.<br>Suitable materials also with prolonged, direct contact (Recommended: Protective index 6, corresponding >480 minutes of permeation time): eg. nitrile rubber (0.4 mm), chloroprene rubber (0.5 mm), polyvinylchloride (0.7 mm) and other<br>Supplementary note: The specifications are based on tests, literature data and information of glove manufacturers. Taking into account the varying conditions, the practical usage of a chemical-protective glove in practice may be much shorter than the permeation time determined through testing.<br>Due to different glove types, the manufacturer's directions for use should be observed.<br>Replace gloves immediately when torn or any change in appearance is noticed such as dimension, color, flexibility. |
| Respiratory Protection        | If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Respiratory protection must be provided in accordance with current local regulations. Selection of air-purifying or positive-pressure supplied-air will depend on the specific operation and the potential airborne concentration of the material.   |
| General Hygiene Consideratior | Is Handle in accordance with good industrial hygiene and safety practice. Wash hands before<br>eating, drinking or smoking. Wash contaminated clothing before reuse. Avoid contact with<br>eyes, skin and clothing. Wear suitable gloves and eye/face protection. Regular cleaning of<br>equipment, work area and clothing is recommended.  |

# 9. PHYSICAL AND CHEMICAL PROPERTIES

# Information on basic physical and chemical properties

| Physical State                         | Liquid            | Appearance           | Colored Liquid           |
|--|-------------------|----------------------|--------------------------|
| Odor                                   | Characteristic    | Odor Threshold       | No information available |
| Property_                              | Values            | Remarks • Method     |                          |
| рН                                     |                   | No data available    |                          |
| Melting Point / Freezing Point         |                   | No data available    |                          |
| Boiling Point / Boiling Range          | > 149 °C / 300 °F |                      |                          |
| Flash Point                            | 46 °C / 115 °F    | Pensky Martens Close | ed Cup (PMCC)            |
| Evaporation rate                       |                   | No data available    |                          |
| Flammability Limit in Air              |                   |                      |                          |
| Upper flammability limit               |                   | No data available    |                          |
| Lower flammability limit               |                   | No data available    |                          |
| Vapor Pressure                         |                   | No data available    |                          |

# **10. STABILITY AND REACTIVITY**

#### Reactivity

No information available.

#### Chemical stability

Stable under normal conditions.

#### Possibility of Hazardous Reactions

None under normal processing.

#### Conditions to avoid

Keep away from open flames, hot surfaces and sources of ignition.

9.66

#### Incompatible materials

Strong acids. Strong bases. Strong oxidizing agents. Reducing agent.

## Hazardous Decomposition Products

Thermal decomposition can lead to release of irritating gases and vapors. Carbon dioxide (CO2). Carbon monoxide.

# **11. TOXICOLOGICAL INFORMATION**

#### Information on likely routes of exposure

| Inhalation   | Specific test data for the substance or mixture is not available. |
|--------------|---|
| Eye Contact  | Specific test data for the substance or mixture is not available. |
| Skin Contact | Specific test data for the substance or mixture is not available. |
| Ingestion    | Specific test data for the substance or mixture is not available. |

| Component                 | Oral LD50          |
|---------------------------|--------------------|
| Naphthalene (constituent) | = 1110 mg/kg (Rat) |
| 91-20-3                   |                    |

| Component                 | Dermal LD50           |
|---------------------------|-----------------------|
| Naphthalene (constituent) | = 1120 mg/kg (Rabbit) |
| 91-20-3                   |                       |

| Component                 | Inhalation LC50     |
|---------------------------|---------------------|
| Naphthalene (constituent) | > 340 mg/m³(Rat)1 h |
| 91-20-3                   |                     |

#### Information on toxicological effects

#### Symptoms

Specific test data for the substance or mixture is not available.

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

| Skin corrosion/irritation | Specific test data for the substance or mixture is not available. |
|---------------------------|---|
| Eye damage/irritation     | Specific test data for the substance or mixture is not available. |
| Irritation                | Specific test data for the substance or mixture is not available. |
| Corrosivity               | Specific test data for the substance or mixture is not available. |
| Sensitization             | Specific test data for the substance or mixture is not available. |
| Mutagenic Effects         | Specific test data for the substance or mixture is not available. |
| Carcinogenic effects      | Specific test data for the substance or mixture is not available. |
| Reproductive Effects      | Specific test data for the substance or mixture is not available. |
| STOT - single exposure    | Specific test data for the substance or mixture is not available. |
| STOT - repeated exposure  | Specific test data for the substance or mixture is not available. |

# **15. REGULATORY INFORMATION**

## International Inventories

All components are listed on the TSCA Inventory. For further information, please contact:. Supplier (manufacturer/importer/downstream user/distributor).

## U.S. Federal Regulations

#### **SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product contains a chemical or chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

| Component                 | CAS-No  | Weight % | SARA 313 - Threshold<br>Values |
|---------------------------|---------|----------|--------------------------------|
| Naphthalene (constituent) | 91-20-3 | < 0.5    | 0.1                            |

## Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)

This product contains the following substances which are listed hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act:.

| Component                         | CAS-No   | Weight % |
|-----------------------------------|----------|----------|
| Diethylene glycol monobutyl ether | 112-34-5 | < 1      |
| Naphthalene (constituent)         | 91-20-3  | < 0.5    |
