

# **SAFETY DATA SHEET**

Published Date Aug-31-2023 Revision Date Aug-31-2023 Revision Number

# **1. IDENTIFICATION**

Product identifier	
Product code	QTRO-MAGENTA-1
Product name	Magenta
Product category	Quatro Series

<u>Other means of identification</u> Synonyms

Recommended use of the chemical and restrictions on useRecommended useIndustrial Printing Operations

None

Details of the supplier of the safety data sheet M&R Printing Equipment 440 Medinah Rd Roselle, IL 60172-2329 (800) 736-6431

# <u>Emergency telephone number</u> Chemtrec: within USA and Canada: (800) 424-9300 Outside USA and Canada: +1 (703) 741-5970

# 2. HAZARDS IDENTIFICATION

# **Classification**

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

# Label elements

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

### Signal word None

# **Hazard statements**

# Hazards not otherwise classified (HNOC)

No information available.

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

# Mixture

Chemical name	CAS No	Weight-%	Trade secret	Note
Deionized water	7732-18-5	60 - 80	*	
Glycerin	56-81-5	10 - 30	*	

Resin	Not Available	5 - 10	*	
C.I. Pigment Red 122	980-26-7	1 - 5	*	
Surfactant	Not Available	1 - 5	*	

\*The exact percentage (concentration) of composition has been withheld as a trade secret.

# 4. FIRST-AID MEASURES

### Description of first aid measures

General Advice Eye Contact	Show this safety data sheet to the doctor in attendance. Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Get medical attention if irritation develops and persists.
Skin Contact	Wash off immediately with soap and plenty of water for at least 15 minutes. Remove contaminated clothing. If irritation (redness, rash, blistering) develops, get medical attention.
Inhalation	Remove person to fresh air and keep comfortable for breathing. If breathing is irregular or stopped, administer artificial respiration. Get medical attention immediately.
Ingestion	Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

# Most important symptoms and effects, both acute and delayed

None under normal use conditions.

### Indication of any immediate medical attention and special treatment needed

### **Notes to Physician**

Treat symptomatically.

5. FIRE-FIGHTING MEASURES

# Suitable Extinguishing Media

Foam. Carbon dioxide (CO2). Dry chemical. Water spray. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

### Unsuitable Extinguishing Media

No information available.

# Specific Hazards Arising from the Chemical

Thermal decomposition can lead to release of irritating gases and vapors. May emit toxic fumes under fire conditions.

# **Protective Equipment and Precautions for Firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Cool containers / tanks with water spray. Sealed containers may rupture when heated.

# 6. ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

### Personal Precautions

Remove all sources of ignition. Ventilate the area. Avoid contact with eyes, skin and clothing. Avoid breathing dust or vapor. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.

### Environmental precautions

Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. Keep out of drains, sewers, ditches and waterways. Local authorities should be advised if significant spillages cannot be contained.

# Methods and material for containment and cleaning up

Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and

place in container for disposal according to local / national regulations (see section 13). Use clean non-sparking tools to collect absorbed material.

# 7. HANDLING AND STORAGE

### Precautions for safe handling

Handling	Use personal protective equipment as required. Do not eat, drink or smoke when using this
	product. Ensure adequate ventilation.

# Conditions for safe storage, including any incompatibilities

Storage	Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from open flames, hot surfaces and sources of ignition. Keep container closed when not in use.
	Keep out of the reach of children. Do not freeze.

Incompatible Products Strong acids. Strong bases. Strong oxidizing agents. Reducing agent.

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Control parameters

# Exposure limits

Chemical name	OSHA PEL
Glycerin	TWA: 15 mg/m <sup>3</sup> mist, total particulate
56-81-5	TWA: 5 mg/m <sup>3</sup> mist, respirable fraction
	· · · ·

Chemical name	OSHA PEL (vacated)
Glycerin	TWA: 10 mg/m <sup>3</sup> mist, total particulate
56-81-5	TWA: 5 mg/m <sup>3</sup> mist, respirable fraction

Chemical name	Mexico OEL (TWA)
Glycerin	TWA/VLE-PPT: 10 mg/m <sup>3</sup> mist
56-81-5	

# Appropriate engineering controls

Engineering Measures	Provide a good standard of general ventilation. Natural ventilation is from doors, windows etc. Controlled ventilation means air is supplied or removed by a powered fan. Users are advised to consider national Occupational Exposure Limits or other equivalent values. In case of insufficient ventilation, wear suitable respiratory equipment.	
Individual protection measures, suc	ch as personal protective equipment	
Eye/Face Protection	Wear safety glasses with side shields (or goggles). If splashes are likely to occur:. Wear suitable face shield. Ensure that eyewash stations and safety showers are close to the workstation location.	
Skin Protection	Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact.	
Hand Protection	Chemical resistant protective gloves. Suitable materials also with prolonged, direct contact (Recommended: Protective index 6, corresponding >480 minutes of permeation time): eg. nitrile rubber (0.4 mm), chloroprene rubber (0.5 mm), polyvinylchloride (0.7 mm) and other Supplementary note: The specifications are based on tests, literature data and information	

	of glove manufacturers. Taking into account the varying conditions, the practical usage of a chemical-protective glove in practice may be much shorter than the permeation time determined through testing. Due to different glove types, the manufacturer's directions for use should be observed. Replace gloves immediately when torn or any change in appearance is noticed such as dimension, color, flexibility.
Respiratory Protection	If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Respiratory protection must be provided in accordance with current local regulations. Selection of air-purifying or positive-pressure supplied-air will depend on the specific operation and the potential airborne concentration of the material.
General Hygiene Consideration	ons Handle in accordance with good industrial hygiene and safety practice. Wash hands before eating, drinking or smoking. Wash contaminated clothing before reuse. Avoid contact with eyes, skin and clothing. Wear suitable gloves and eye/face protection. Regular cleaning of equipment, work area and clothing is recommended.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical a Physical state Odor	and chemical properties Liquid No information available	Appearance Odor Threshold	Colored No information available
<u>Property</u> pH Melting Point / Freezing Point Boiling Point / Boiling Range Flash Point Evaporation rate Flammability Limit in Air Upper flammability limit	<u>Values</u> No information available > 100 °C / 212 °F > 94 °C / > 201 °F	Remarks • Method No data available No data available No data available No data available No data available

# **10. STABILITY AND REACTIVITY**

<u>Reactivity</u> No information available.

### Chemical stability

Stable under normal conditions.

### Possibility of hazardous reactions

None under normal processing.

## Conditions to avoid

Keep away from open flames, hot surfaces and sources of ignition. Do not freeze.

### Incompatible materials

Strong acids. Strong bases. Strong oxidizing agents. Reducing agent.

# Hazardous decomposition products

Thermal decomposition can lead to release of irritating gases and vapors. Carbon dioxide (CO2). Carbon monoxide.

# **11. TOXICOLOGICAL INFORMATION**

### Information on likely routes of exposure

Inhalation	Specific test data for the substance or mixture is not available.
Eye Contact	Specific test data for the substance or mixture is not available.
Skin Contact	Specific test data for the substance or mixture is not available.
Ingestion	Specific test data for the substance or mixture is not available.

Chemical name	Oral LD50
Deionized water	> 90 mL/kg (Rat)
7732-18-5	
Glycerin	= 12600 mg/kg (Rat)
56-81-5	
C.I. Pigment Red 122	> 23 g/kg (Rat)
980-26-7	

Chemical name	Dermal LD50
Glycerin 56-81-5	> 10 g/kg (Rabbit)
C.I. Pigment Red 122 980-26-7	> 2000 mg/kg (Rat)

Chemical name	Inhalation LC50
Glycerin	> 2.75 mg/L (Rat)4 h
56-81-5	

# Symptoms related to the physical, chemical and toxicological characteristics

Symptoms

Specific test data for the substance or mixture is not available.

## Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation	Specific test data for the substance or mixture is not available.
Eye damage/irritation	Specific test data for the substance or mixture is not available.
Irritation	Specific test data for the substance or mixture is not available.
Corrosivity	Specific test data for the substance or mixture is not available.
Sensitization	Specific test data for the substance or mixture is not available.

# Numerical measures of toxicity - Product Information

Unknown acute toxicity	0 % of the mixture consists of ingredient(s) of unknown toxicity
The following values are calculated	based on chapter 3.1 of the GHS document
ATEmix (oral)	99,999.00
ATEmix (dermal)	99,999.00
ATEmix (inhalation-gas)	99,999.00
ATEmix (inhalation-dust/mist)	99,999.00
ATEmix (inhalation-vapor)	99,999.00

# **12. ECOLOGICAL INFORMATION**

### Ecotoxicity

Specific test data for the substance or mixture is not available.

0 % of the mixture consists of component(s) of unknown hazards to the aquatic environment

Chemical name	Fish
Glycerin	96h LC50 Oncorhynchus mykiss: 51 - 57 mL/L (static)
56-81-5	

# Persistence and Degradability

No information available.

# **Bioaccumulation**

Chemical name	Partition coefficient
Glycerin	-1.76
56-81-5	

# 13. DISPOSAL CONSIDERATIONS

# Waste treatment methods

Waste Disposal Methods	Contain and dispose of waste according to local regulations.	
Contaminated Packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal.	

# **14. TRANSPORT INFORMATION**

Note:	This information is not intended to convey all specific transportation requirements relating to this product. Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations. Additional transportation information can be found in the specific regulations for your mode of transportation. It is the responsibility of the transportation of the material.
DOT	Not regulated
ICAO / IATA / IMDG / IMO	Not Regulated

# **15. REGULATORY INFORMATION**

### International Inventories

All substances are listed as ACTIVE on the TSCA Inventory. For further information, please contact:. Supplier (manufacturer/importer/downstream user/distributor).

# U.S. Federal Regulations

### <u>SARA 313</u>

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

# Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)

This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 112 (40 CFR 61).

# US State Regulations

Chemical name	Massachusetts
Glycerin	X
56-81-5	

	Minnesota Right To Know
