5. FIRE-FIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media:

Dry chemicals, carbon dioxide, water sprinkling, and alcohol-resistance foam extinguishing agent

Unsuitable Extinguishing Media

Jet water

5.2 Special hazards arising from the substance or mixture

Irritant, corrosive and/or toxic gas may be generated by a **Specific Hazards** fire. Container may explode when heated

5.3 Advice for firefighters

Specific Fire Fighting

Carry out fire-fighting at the safe and effective distance from the fire, or use a unattended hose-holding unit, or a nozzle with a monitor.

Protection of Fire Fighters

In fire-extinguishing activity, wear an appropriate air breathing apparatus and full protective clothing for chemicals.

6. ACCIDENTAL RELEASE MEA	SURES		
6.1 Personal precautions, protective equipment and emergency procedures			
	Do not touch the leakage, and do not walk on it.		
	Prohibit unauthorized entry into the area. Wear		
	appropriate personal protective equipment (Refer		
	to "Section 8 - EXPOSURE CONTROLS /		
	PERSONAL PROTECTION" and avoid inhalation		
	or contact with eyes and skin. If not wearing an		
	appropriate personal protective clothing, do not touch the damaged leakage.		
6.2 Environmental precautions	touch the damaged leakage.		
	Do not release into the environment.		
	Pay attention not to cause the influence on		
	the environment by discharging into rivers.		
6.3 Methods and material for contain			
Decontamination/Absorption	n/Sweeping/Vacuuming/Neutralization		
	In case of small quantity, absorb the leakage with		
	dry soil, sand, and incombustible-material or		
	collect it into acontainer that can be covered		
	tightly for later disposal. In case of small quantity, use clean and anti-static tools to collect absorbed		
	materials. In case of large quantity, prevent the		
	spills from spreading with embankment to lead		
	them to a safe place for collection. Collect the		
	material into a disposal container by sucking up		
	or sweeping up.		
Methods and Equipment for	r Containment and Cleaning up		
	All devices to handle spills must be grounded.		
	If not dangerous, stop the leak.Small amount:		
	Prevent the material from wetting by rain. Cover with dry soil, dry sand, or non-combustibles and		
	store under a plastic sheet cover to avoid		
	scattering and wetting. Cleansing the		
	contaminated area thoroughly with water after		
	removal.		
Prevention Measures for Se			
	Removes all ignition sources promptly.		
	(Prohibition of smoking, sparks, and flames in the		
	surrounding area) Prevent flowing into drain,
